

## A Training Program in South Korea for Promoting Fresh Talent

In the context of the PIC's keenness to invest in its human resources and towards growing and developing competencies to achieve creativity and increase productivity in the collective work environment, a training program was organized for the Company's newly-appointed staff in collaboration with Daewon Advisory under the title of "**PIC Fresh Talent Program**" from June 10 through June 15, 2019.

The Program involved various field visits to many Korean companies and landmarks with the aim of raising the trainees' awareness on the capabilities and innovations available in this Country and enabling the trainees to boost their competencies and practical skills, thus improving the working techniques of each field within the Company, which ultimately contributes to delivering on the Company's strategic objectives.
